

Laxmi Charitable Trust's
 Sheth L.U.J College of Arts & Sir M.V. College of Science and Commerce
Department of Information Technology (B.Sc.I.T Semester V)
 Full Stack development MERN Practical
 Practical- 6

Roll No.: T025	Name: Afsha Amjad Mujawar
Class: TYIT	Batch:1
Date of Assignment: 09-09-2026	Date/Time of Submission:09-09-2026

Aim: Node.js and Express Fundamentals

a. Install Express and create a simple server.

Step 1 - create folder Expresspractical and open that folder in V S Code

Step 2 -in V S code open terminal -> (write) npm init -y => this will create package.json file in folder.

Step 3 - npm install express => this will install express

Step 4 - create server.js page in Expresspractical folder like this

Step 5 - Write following code into server.js file

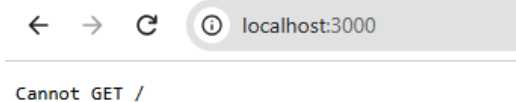

- **server. Js:**

Code:

```
const express = require("express");
const app = express();
const PORT = 3000;
app.listen(PORT, () => {
  console.log(`Server is running on http://localhost:${PORT}`);
});
```

Step 6 - run the code => open terminal & write => node server.js

Step 7 - output in terminal => Server is running on http://localhost:3000

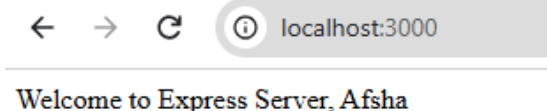

Output:

b. Display a message on the browser using the server response.

Code: Server.js:

```
const express = require("express");
const app = express();
const PORT = 3000;
app.get("/", (req, res) => {
  res.send("Welcome to Express Server, Afsha");
});
app.listen(PORT, () => {
  console.log(`Server is running on http://localhost:${PORT}`);
});
```

Output:

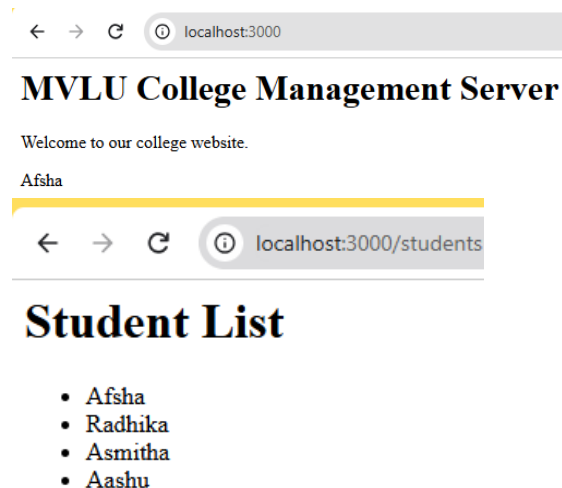

c. Create different routes in Express.

Code:

```
const express = require("express");
const app = express();

const PORT = 3000;
```

```
// Home Route
app.get("/", (req, res) => {
  res.send(`
    <h1>MVLU College Management Server</h1>
    <p>Welcome to our college website.</p>
    <p>Afsha</p>
  `);
});
// Students Route
app.get("/students", (req, res) => {
  res.send(`
    <h1>Student List</h1>
    <ul>
      <li>Afsha</li>
      <li>Radhika</li>
      <li>Asmitha</li>
      <li>Aashu</li>
    </ul>
  `);
});
// Faculty Route
app.get("/faculty", (req, res) => {
  res.send(`
    <h1>Faculty List</h1>
    <ul>
      <li>Sneha Gokarnkar - Information
Technology</li>
      <li>Rohini Bhosale - Information
Technology</li>
      <li>Sumit Tripathi - Information
Technology</li>
    </ul>
  `);
});
```

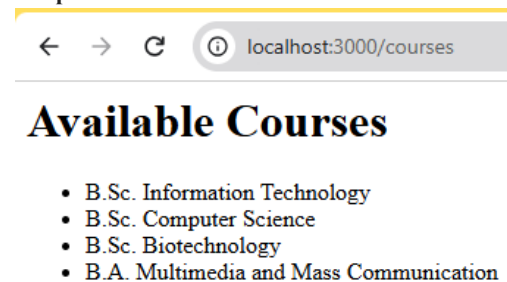

d. Send a JSON response from the server.

Code:

```
const express = require("express");
const app = express();
const PORT = 3000;
// Home Route
app.get("/", (req, res) => {
  res.send("Welcome to MVLU College Management
Server");
});
```

```
    <li>Chetana Tanavade - Information
Technology</li>
  </ul>
  `);
});
// Courses Route
app.get("/courses", (req, res) => {
  res.send(`
    <h1>Available Courses</h1>
    <ul>
      <li>B.Sc. Information Technology</li>
      <li>B.Sc. Computer Science</li>
      <li>B.Sc. Biotechnology</li>
      <li>B.A. Multimedia and Mass
Communication</li>
    </ul>
  `);
});
// Contact Route
app.get("/contact", (req, res) => {
  res.send(`
    <h1>Contact Us</h1>
    <p>Email: info@mvlucollege.in</p>
    <p>Phone: 9876543210</p>
    <p>Address: Andheri, Mumbai</p>
  `);
});
// Start Server
app.listen(PORT, () => {
  console.log(`Server is running on
http://localhost:${PORT}`);
});
```

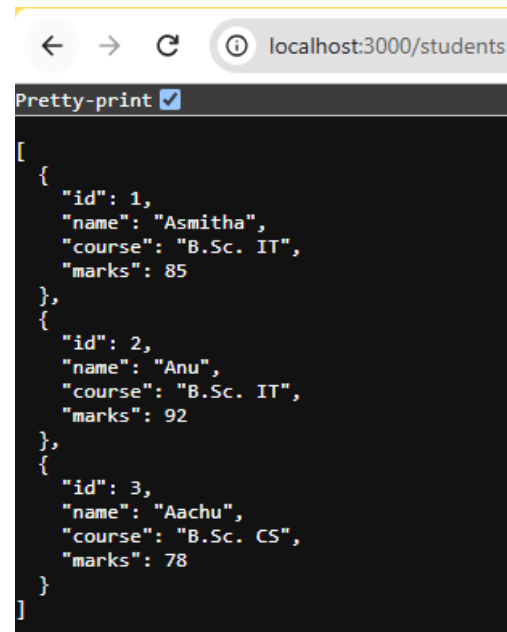

Output:

```

    },
    {
      id: 2,
      name: "Anu",
      course: "B.Sc. IT",
      marks: 92
    },
    {
      id: 3,
      name: "Aachu",
      course: "B.Sc. CS",
      marks: 78
    }
  ];
  res.json(students);
});
// Start Server
app.listen(PORT, () => {
  console.log(`Server is running on
http://localhost:${PORT}`);
});

```

Output:

```

[
  {
    "id": 1,
    "name": "Asmitha",
    "course": "B.Sc. IT",
    "marks": 85
  },
  {
    "id": 2,
    "name": "Anu",
    "course": "B.Sc. IT",
    "marks": 92
  },
  {
    "id": 3,
    "name": "Aachu",
    "course": "B.Sc. CS",
    "marks": 78
  }
]

```

e. Test routes using browser or Postman.**Code:**

```

const express = require("express");
const app = express();
const PORT = 3000;

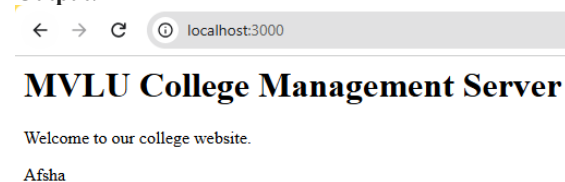

// Home Route
app.get("/", (req, res) => {
  res.send(`
    <h1>MVLU College Management Server</h1>
    <p>Welcome to our college website.</p>
    <p>Afsha</p>
  `);
});
// Students Route
app.get("/students", (req, res) => {
  res.send(`
    <h1>Student List</h1>
    <ul>
      <li>Afsha</li>
      <li>Radhika</li>
      <li>Asmitha</li>
      <li>Aashu</li>
    </ul>
  `);
});
// Faculty Route
app.get("/faculty", (req, res) => {
  res.send(`
    <h1>Faculty List</h1>
    <ul>
      <li>Sneha Gokarnkar - Information
Technology</li>
      <li>Rohini Bhosale - Information
Technology</li>
      <li>Sumit Tripathi - Information
Technology</li>
      <li>Chetana Tanavade - Information
Technology</li>
    </ul>
  `);
});

```

```

});
// Courses Route
app.get("/courses", (req, res) => {
  res.send(`
    <h1>Available Courses</h1>
    <ul>
      <li>B.Sc. Information Technology</li>
      <li>B.Sc. Computer Science</li>
      <li>B.Sc. Biotechnology</li>
      <li>B.A. Multimedia and Mass
Communication</li>
    </ul>
  `);
});
// Contact Route
app.get("/contact", (req, res) => {
  res.send(`
    <h1>Contact Us</h1>
    <p>Email: info@mvlucollege.in</p>
    <p>Phone: 9876543210</p>
    <p>Address: Andheri, Mumbai</p>
  `);
});
// Start Server
app.listen(PORT, () => {
  console.log(`Server is running on
http://localhost:${PORT}`);
});

```

Output:

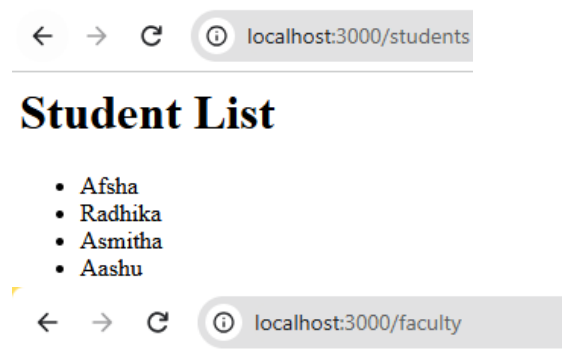

```

MVLU College Management Server

Welcome to our college website.

Afsha

```

← → ↻ ⓘ localhost:3000/students

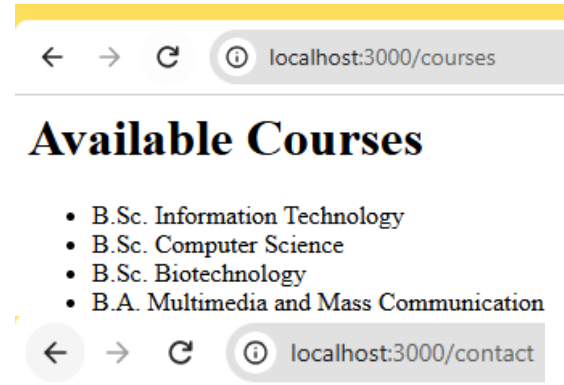

Student List

- Afsha
- Radhika
- Asmitha
- Aashu

← → ↻ ⓘ localhost:3000/faculty

Faculty List

- Sneha Gokarnkar - Information Technology
- Rohini Bhosale - Information Technology
- Sumit Tripathi - Information Technology
- Chetana Tanavade - Information Technology

← → ↻ ⓘ localhost:3000/courses

Available Courses

- B.Sc. Information Technology
- B.Sc. Computer Science
- B.Sc. Biotechnology
- B.A. Multimedia and Mass Communication

← → ↻ ⓘ localhost:3000/contact

Contact Us

Email: info@mvlucollege.in

Phone: 9876543210

Address: Andheri, Mumbai

f. Run the server and observe the output in the console.

```
Terminal
PS C:\Users\mvlui\Desktop\Afsha 25\Expresses Practical> node server.js
Server is running on http://localhost:3000
```
